

Fun with Foreign Language (FwFL) Health and Safety Protocols

The FwFL program will be conducted in accordance with health and safety protocols appropriate for the activity and for the conditions at the time and may be amended. FwFL will implement plans to reduce the risk of exposure to COVID-19, however, none of these plans and mitigation efforts can guarantee complete safety, nor can they eliminate all risk of exposure. Students participating in the program will be required to follow these protocols and will be immediately removed from the program if they do not fully comply.

A. Masks and Face Coverings

Masks and face coverings are optional for students, teachers, and parents.

B. When Someone is Sick

If students or parents in parent/toddler class are experiencing any of the following COVID-like symptoms:

- temperature above 99.5° F,
- runny nose,
- sore throat,
- cough,
- headache,
- lethargy,
- difficulty breathing,
- diarrhea or vomiting Please stay home and please refer to your healthcare provider for evaluation and testing.

If your child (or parent in p/t class) tests positive for COVID-19:

- Please keep them home for 5 full days and contact us.
- Your child may return to the program if it falls on Day 6 of a positive test result or the onset of symptoms if they are symptom free for at least 24 hours. Day 0 is the date of the positive test result or the onset of symptoms.
- If returning to the program is between Days 6 and 10, your child should

wear a well-fitted mask. If they are unable to do so, they may return to the program with a negative test result on Day 6 or after. No test is needed if they return after Day 10.

If your child (or parent in p/t class) has been exposed to COVID-19:

- Your child does not need to quarantine if they remain symptom free.
- CDC and MSDE recommend wearing a mask for 10 days.

C. Ventilation

Cracking windows or doors helps to increase airflow, which helps to reduce potential concentration of virus particles in the air.
